Letter of Reference/Recommendation

To whom it may concern,

SEEU has, with the beginning of its eighth year of operation and gradually is promoting programmes of research and scholarship which are linked to its mission and in particular contributing to the economic and social development of Macedonia and the region, while not ignoring the element of research and scholarship purely for academic reasons. With in the call ID FP7-REGPOT-2010-5 decided to apply with a project title "Growth, employment and competitiveness: developing and integrating SEEU's research capacity on the issues affecting growth and socio-economic stability in FYROM" and the application was prepared by **Knowledge Center-West Balkan Regional Office in Ljubljana**.

We are highly satisfied with the cooperation and work of the **Knowledge Center**, thus recommend them for whatever challenge that they may take on next.

We would be pleased to answer any further queries you may have regarding or experience with **Knowledge Center-Ljubljana** and can be contacted by e-mail d.ismaili@seeu.edu.mk or at: +389 44 356 000 ext.119

Sincerely,

Prof. Dr. Murtezan Ismaili,
Prorector for Research and Quality – SEEU
